(make as many as you want)

CANDLE FACTS

PARAFFIN CANDLES

- Paraffin wax is derived from petroleum
- Paraffin wax emits harmful vapors
- Paraffin wax emits a black soot
- Paraffin wax is difficult to remove from cloth
- Paraffin wax produces carcinogens
- Paraffin candles may not burn completely
- Paraffin must be blended with chemicals to be able to release fragrances

NU SOY CANDLES

- Nu Soy™ wax is derived from vegetables
- Nu Soy™ wax is 100% non-toxic and all natural
- Nu Soy™ wax burns cleaner
- Nu Soy™ wax cleans up with soap & hot water
- Nu Soy™ wax burns about 10 hours an ounce
- Nu Soy™ wax burns completely
- Nu Soy™ wax releases fragrances naturally and throughout the life of the candle
